SUMMARY

A dependable developer with a solid background in software development, complemented by strong communication, time management, and technical skills. Strong foundation in integrating databases such as MySQL and building scalable, user-friendly interfaces. Driven and detail-oriented, I am passionate about applying my analytical and problem-solving abilities to achieve both team and personal objectives. experience in developing robust web applications. Skilled in both front-end and back-end technologies. Focused on delivering high-quality solutions that contribute to the success of the company and align with its goals.

WORK EXPERIENCE

ADP- Member Technical

Sep 2023 - present, Hyderabad

Full Stack Developer

- Delivered new features from UI to Rest API implementation using **React.js, JavaScript and Spring boot** ensuring smooth integration and functionality within the dashboard.
- Actively resolved client issues in production, ensuring timely fixes and optimized code to maintain high availability and performance.
- Identified and resolved issues in both existing features and new implementations, ensuring a stable and high-performing application.
- Worked closely with cross functional teams to successfully deliver the **Automatic Billing** feature, ensuring it met business and technical requirements.
- Wrote and maintained **JUnit** tests to ensure robust unit testing coverage, improving code quality and ensuring features worked as expected before deployment.
- Managed tasks, bugs, and user stories using **JIRA**, ensuring smooth workflow and efficient time management.
- Focused on improving accessibility by using tools like **JAWS** and **NVDA** for debugging which resulted in a 75% reduction in accessibility-related issues, enhancing the user experience for clients with disabilities.
- Used **Splunk** to monitor and analyse transaction data, helping pinpoint and resolve issues quickly, ensuring better system performance.
- Delivered the most important Search Feature to our product. Worked on both UI and Backend.
- Earned **recognition as Employee of The Month** for delivering new features, addressing client concerns, and significantly improving accessibility.
- **Tech Stack:** Java, React.js, HTML, CSS, JavaScript, Spring Boot, SQL, Kafka
- **Tools:** Jenkins, Git (Version Control), Splunk.

EDUCATION

Gokaraju Rangaraju College(GRIET)

Bachelor's of technology , ECE

2019-2023, Hyderabad, Telangana

Cumulative GPA: 8.17

SKILLS

Languages and frameworks

Frontend: HTML, CSS, JavaScript, ReactJs

Backend: DSA, Java, Spring Boot, Microservices, Spring JPA, Kafka

Database: SQL

Tools and Technologies

Oracle SQL, Jenkins, GIT, Splunk, JAWS, NVDA

Methodologies

Agile/ Scrum

ACHIEVEMENTS

- I had the chance to present my research on a [Multi Lung Disease Detection](#) using ML and Deep Learning model at an IEEE conference. It was a rewarding experience to showcase how machine learning can be used detect disease lung disease before and take required precautions.
- Participated in many Hackathons and Coding competitions.
